

TRIBAL PARTNERSHIP INITIATIVE

We at California Indian Nations College are excited to reach out to our local tribes and invite you to become partners in our extraordinary institution.

We rely on tribal partnerships to help fund everything from highly-qualified faculty to classrooms, student services and advisement to our high school equivalency program and everything else required to maintain the College. The stability provided by tribal support is central to securing accreditation and eligibility for federal funding, opening additional avenues of support in the near future. This Initiative helps to provide for current needs and helps us look forward to all of the possibilities that lie before us. We invite you to help educate the next generation of tribal members for the betterment of our communities.

We look forward to your participation in this initiative and are excited at the possibilities that lie ahead! For more information on partnership opportunities, please contact the Office of the President: rmariano@CINCollege.org or 760.834.0593.

Join us by becoming one of our partner tribes:
